

LOAD CELLS

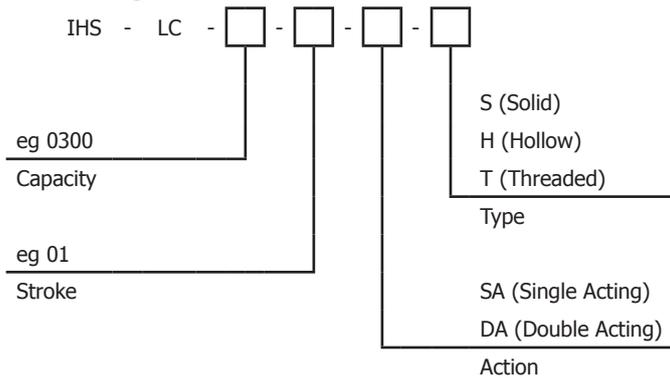

Overview

McMillan Engineering Group design and manufacture hydraulic load cells. Specifically engineered to suit exact application requirements. Our load cells are designed to suit any testing configuration.

Options

- Up to 13,000 kN Capacity
- Single or Double Acting
- Solid
- Hollow
- Threaded
- NATA Calibration

Ordering Information

Example: IHS-LC-0300-01-SA-T
300T Capacity / 25mm Stroke
Single Acting / Threaded

300T Threaded Load Cell

13,000kN Load Cell

Calibration of 300T Load Cell
